INVENTORY 11 PERCENT HIGHER: U.S. inventory of hogs and pigs is estimated at 67.0 million head on December 1, 1979 according to the Crop Reporting Board. This is 11 percent above a year earlier, 18 percent more than December 1, 1977 and the largest December 1 inventory since 1970.

-- Breeding inventory at 9.55 million is virtually unchanged from a year ago but 11 percent above two years ago.

-- Market hog inventory at 57.4 million is 14 percent above last year and 20 percent more than December 1, 1977.

The 14 Quarterly States with 56.8 million head on December 1 are up 11 percent from a year earlier and 18 percent above December 1, 1977. These 14 States account for approximately 85 percent of the total U.S. hog and pig inventory.

1979 PIG CROP: The U.S. pig crop for 1979 totaled 103 million head, 16 percent more than during 1978 and 19 percent above the 1977 pig crop.

-- December 1978-May 1979 pig crop, estimated at 50.7 million head, is up 19 percent from a year earlier and is 18 percent above two years ago.

-- June-November 1979 pig crop, estimated at 52.1 million head is 13 percent more than a year ago and 21 percent above the June-November 1977 crop.

The previous six month pig crop (June-November) is 77.8 percent of the December 1 all hog inventory compared with 76.5 percent a year earlier.

A total of 7.30 million sows farrowed during June-November 1979--14 percent more than a year earlier. The litter size during this period averaged 7.13 compared with 7.19 a year earlier.

In the 14 Quarterly States, the June-August 1979 pig crop totaled 22.6 million head, up 18 percent from a year ago. For the September-November period, the pig crop of 21.5 million head increased 8 percent from the same period during 1978.

FARROWING INTENTIONS: U.S. hog producers intend to farrow 7.18 million sows during the December 1979-May 1980 period, about the same number as a year ago and 19 percent above 2 years ago.

These intentions and projected litter size indicate a pig crop of 51.0 million, 1 percent above a year earlier and 20 percent more than December 1977-May 1978.

Intentions in the 14 Quarterly States totaled 2.66 million sows to farrow during December 1979-February 1980 period, practically the same as a year ago. The March-May 1980 intentions at 3.44 million are 1 percent below the March-May 1979 quarter.

RELIABILITY AND ESTIMATING PROCEDURES: Primary data used in setting these hog estimates were obtained from a sample of farmers across the U.S. using probability surveys. Information was collected by mail, telephone and personal interviews. Since all operations raising hogs were not included in the sample, survey estimates are subject to sampling variability. This variability, as measured by the relative standard error, is about two percent at the U.S. level for hog inventory. This means that chances are approximately 95 out of 100 that survey estimates will be within four percent of the complete coverage value if the same procedures were used to survey all producers. Survey estimates are also subject to non-sampling errors such as omissions, duplications, and mistakes in reporting, recording and processing the data. These errors cannot be measured directly, but they are minimized through rigid quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

The sampling variability of survey estimates on intended farrowings is slightly larger than that for inventories. More important, actual farrowings may differ significantly from reported intentions due to unexpected economic and environmental conditions. These differences have exceeded four percent for about one-third of the quarterly pig crops during the last five years.

In setting the inventory estimates, the Crop Reporting Board constructed a U.S. balance sheet using estimates on births, deaths and check data on slaughter, imports and exports. This balance sheet provided an additional check on survey inventory estimates.

APPROVED:

ACTING SECRETARY OF AGRICULTURE

CROP REPORTING BOARD:

J. W. Kirkbride, Chairman,  
M. L. Koehn, Secretary,  
D. W. Barrowman, D. E. Murfield,  
F. S. Barrett, K. D. Cavett,  
C. E. Gore, G. W. Hill,  
T. E. Kurtz.
